Free Up Massage Cream

FREE UP Massage cream has several benefits—some that it shares with other massage creams and some that set it apart from them. Here are some of FREE UP massage cream's wonderful attributes:

- » It creates a great glide: FREE UP acts as a lubricant letting the massage therapist's hand glide effortlessly over the client's skin. It is formulated to have superb tissue perception to work surface & deep muscle with less friction for work that involves a lot of effleurage.
- » FREE UP has a slow absorption rate, due to its thicker consistency it doesn't need to be reapplied as often.
- » Excellent lubricity. Unlike oily or slick substances, does not inhibit deep tissue penetration or discrimination.
- » Won't ball up or dry out on the skin. Safe, moisturizing, quality formulation. Bacteriostatic. Does not contain beeswax.
